Airfield Lighting Training (ALT) is the specialist training arm of Airfield Lighting Design & Training Limited (ALDT) and delivers specialist engineering training for the next generation of airfield engineering practitioners operating globally.

All training is delivered and aligned to the International Civil Aviation Organisation (ICAO) guidelines for Competency Based training & Assessment (CBTA) by world renowned Instructors with several decades of experience in both Civil & Military aviation worldwide.

ALT 1 - 1 days

Preparatory Introduction to AGL and its principles.

This is available either as an in person or on-line option prior to attending all Instructor-led courses.

ALT 2 - 5 days

AGL Maintenance Engineering Course. Covering all aspects needed for efficient maintenance and asset management of AGL installed on your airfield.

ALT 3 - 3 days

AGL Authorised Person Course. This 5 day course is specifically designed for electrically qualified personnel responsible for safe electrical systems management.

ALT 4a - 4 days

AGL Operational Design Course. Providing a detailed introduction to Airside & AGL design fully aligned to International, Regional & National Standards for Project Leaders, Maintenance managers & Regulatory Personnel.

ALT 4b - 10 days

Detailed AGL Design Course. A fully interactive course providing in-depth knowledge & definition for fully compliant AGL designs, systems & products. Specifically for specialist engineering personnel working as Design Engineers & Consultancies.

ALT 5 - 3 days

Precision Approach Path Indicator (PAPI) course. Provides an introduction to the design, function, alignment & maintenance of PAPI systems.

ALT 6 - (days TBC)

AGL Product Training. Flexible & Precision training for the complete range of AGL equipment's covering Control, Power, Distribution and Lighting product ranges.

ALT 7 - (days TBC)

ATSEP Training. Days TBC following customer needs. Comprehensive ATSEP (Air Traffic Safety Electronics Personnel) Basic Training Course designed in full alignment with ICAO and Eurocontrol.

ALT 8 (days TBC)

OJTI / Competence Assessor - compliant with ICAO Annex 19, CAP670 and EASA to ensure effective work place training and the assessment of staff competence to do their job.
